

ART SIZE COMPARISON

Standard Imprint of 11" Wide Artwork on Adult T-Shirts

Depending on the brand of hoodies, the maximum height for imprints on youth hoodies is about 7", and the maximum height for adult hoodies is between 9" and 10".

Using the same size art for both youth and adult garments will result in an image that looks too big on youth items and too small on adult items.

When you print on top of the front pocket and seams, this produces less than desirable results. All images must fit between the collar and above the front pocket.
